<b>1. State Agency</b> School and Institutional Trust Lands Administration	<b>2. Approximate date project will start:</b> March, 2005
<b>3. Title of proposed action: Easement 55 Amendment, Kanarraville Town</b>	
<b>4. Description of Project:</b> The Trust Lands Administration has received a request from Kanarraville Town to amend their existing easement for a waterline to include an area around their spring. The additional area will include approximately 0.5 acres which encompasses the spring area to allow for protection and maintenance of the spring.	
<b>5. Location and detailed map of land affected (site location map required, electronic GIS map preferred) (include UTM coordinates where possible)</b> Township 37 South, Range 12 West, SLB&M Section 36: (within) 0.5 acres Iron County.	
<b>6. Possible significant impacts likely to occur:</b> - Fencing of the spring area will allow for better water quality for the culinary water system and protection of the spring. - Additional area will allow for maintenance of the spring area and upgrading of the spring.	
<b>7. Identify local government affected</b> a. Has the government been contacted? Yes, local government is the applicant. Iron County Commission will also receive a copy of this form. b. When? 11/17/04 c. What was the response? Pending d. If no response, how is the local government(s) likely to be impacted? Positive impact for Kanarraville Town, no impact to Iron County.	
<b>8. For acquisitions of land or interests in land by DWR or State Parks please identify state representative and state senator for the project area. Name and phone number of state representative, state senator near project site, if applicable: Not Applicable</b> a. Has the representative and senator been contacted?	

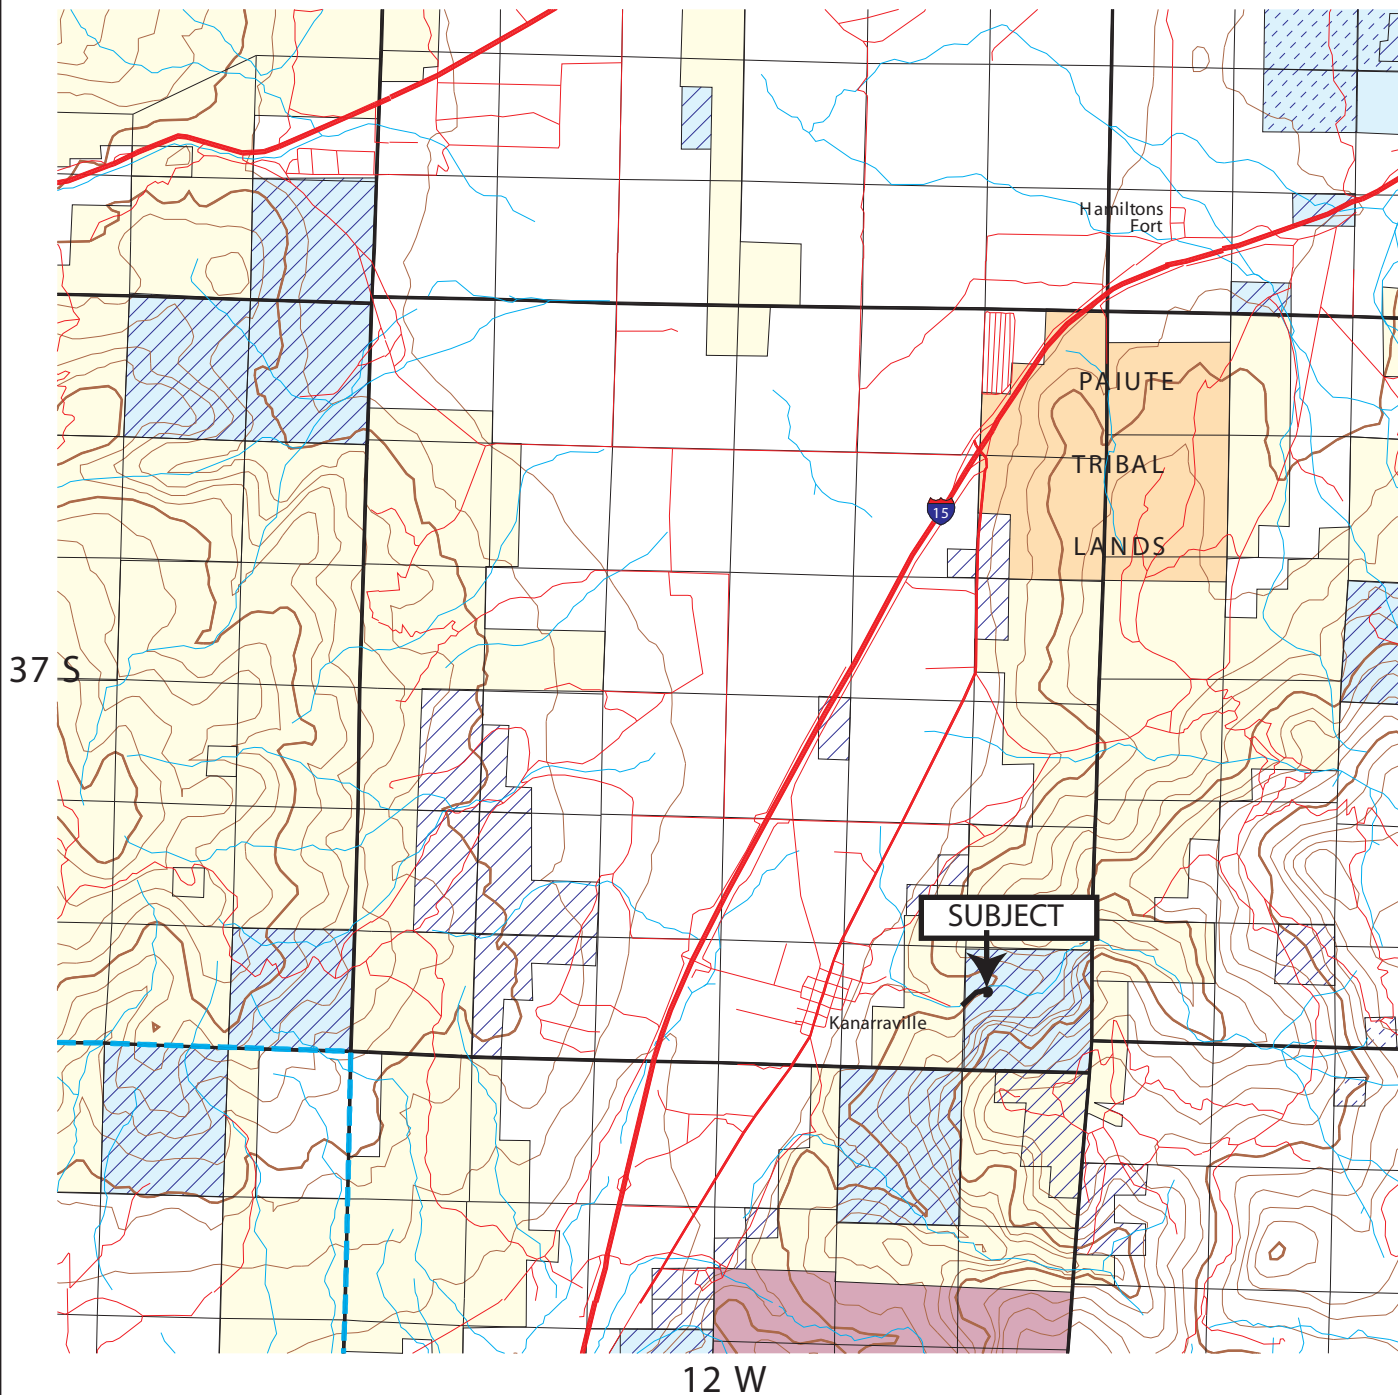

**9. Areawide clearinghouse(s) receiving state action: (to be sent out by agency in block 1)**  
**Five County Association of Governments, John Williams, Executive Director, P.O. Box 1550, 906 N. 1400 W., St. George, UT. 84771-1550.**

School and Institutional  
Trust Lands Administration

Information on this map was derived from USGS DLG files out of the State Geographic Information Database (SGID) from the Automated Geographic Reference Center (AGRC) at 1:100,000 scale - ownership, roads, hydrography, federal boundaries, county boundaries. The ownership data was then rectified to the Trust Land Administration's (TLA) 1:24,000 PL5 data (section lines taken from USGS DLG files), USGS GFF files and internally digitized data. Trust Land surface ownership was then edited and mineral ownership was added by TLA, ownership of less than a section is approximate. Official and detailed information is available through TLA and AGRC. Contour line data was derived from USGS DEM files at 1:250,000 scale (3 arc second) and generated into 200 foot contour intervals. Information shown at a smaller scale than its source scale may not be accurate and is for reference only.
